

INTERNATIONAL ECONOMICS CONVENTION

The International Economics Convention is a unique initiative of the H(S)NC Board to inculcate research skills among students at the undergraduate level and also to sensitize young minds to focus on topical issues. The idea of conducting the Economics Convention by educational institutes was initiated by Dr. I G Patel, former Governor of Reserve Bank of India. This suggestion was well taken by the H(S)NC Board and implemented by Dr. (Mrs.) Indu Shahani, Principal H.R. College in the year 1993. With Dr. Ram Tarneja as the Chairman, the Economics Convention has risen to great heights. The convention has been hosted by Smt. MMK College of Commerce and Economics four times its inception. It is a unique and one of its kinds of a programme for inculcating research aptitude among under graduate students in India.
